NTL are an industrial group originally from Mainz. These tapes were already released by Calypso Now in 1983/1984, and I like them so much, I just had to rerelease them. NTL are still active, now in Berlin.

Worlds Apart (1983)

Bob Roke :

The View From Here

Years On Earth had two of their tapes on the Calypso Now label back in 1984, they were among my favorites. Dreamy industrial tracks may remind of Cabaret Voltaire, they use homemade and vintage electronics mixed with natural sounds. For the relaunch of the label Bob Roke of Y.O.E. gave me one of his recent solo works and he even managed to copy the original master of their very first and very rare 1981 tape for rerelease by Calypso Now !

Nick Porsche : Deutsche Hitparade Vega 2000

Nick Porsche was drummer with hyperactive [Puts Marie](#) from Biel, a band that was almost constantly on the road for the last couple of years. Here he goes solo with a first collection of his songs I ripped of his hard disk... More in this series to follow! Please...

Turn over

Calyпсо Now: Swiss independent cassette label by [Hotcha](#). Released around 200 cassette productions from 1983 to 1988, most of them licensed from other labels. Also, these tapes were copied over the years as needed, so the actual cassette used depended on what was available on the market at the time, and the covers do not always carry mention of the Calypso Now label and practically never an order number - that was due to the punk idea ("Be there or be square"). After 1989 the label became home to Hotcha's band Pull My Daisy until 1992, where all activities stopped. Today the label is active again.
